

Notice of Proposed No Further Action

For

Dass Property
129 4th Street
Eureka, California

Case Number 1THU996

Humboldt County

Notice Posting Date: October 8, 2021

End of Comment Period: December 7, 2021

A soil and groundwater investigation was conducted at the above-referenced site and a release of petroleum hydrocarbons was documented. Although some contamination remains, this site meets the conditions for closure under the State Water Resources Control Board's "Low-Threat Underground Storage Tank Case Closure Policy." North Coast Regional Water Quality Control Board staff proposes that no further work be required. The purpose of this notice is to inform interested parties, including owners of nearby land, that the case is being considered for closure, and to invite public comment on this proposed decision.

Problem Description

A previous underground storage tank fuel system released gasoline to soil and groundwater at this site. Soil and groundwater at and around the site have been investigated. Groundwater monitoring at the site has shown contamination in groundwater in the immediate vicinity of the site, but the contamination is no longer spreading. No water supply wells were impacted by this contamination.

Proposed Action

Case closure is proposed. This site meets the conditions for closure under the State Water Resources Control Board's [Low Threat Underground Storage Tank Case Closure Policy](#).
